

WSU-PNNL Distinguished Graduate Research Program

Washington State University and Pacific Northwest National Laboratory are recruiting outstanding STEM Ph.D. students for the Fall 2024 Cohort of the Distinguished Graduate Research Program (DGRP).

New graduate students who are interested in the DGRP should contact WSU faculty while applying to a WSU Ph.D. program.

[Prospective Student Information](#)

The **DGRP** is a unique opportunity to conduct collaborative research at both WSU and PNNL while working towards a doctoral degree in a STEM field.

- The program **elevates graduate training** by providing experience, mentorship, and research opportunities in both academic and national laboratory settings.
- The DGRP is committed to recruiting and retaining students with diverse backgrounds and experiences, creating an **inclusive environment to enhance creative thinking and discovery**.
- Detailed information can be found in the [DGRP Guidelines](#).
- **DGRP students are funded by WSU and PNNL advisors**. During the period of PNNL funding, students receive an elevated stipend level (increase of at least 10%).
