AGI DAY 2021

In this interactive, virtual event, Advanced Grid Institute (AGI) leaders will provide an overview of the AGI and how Pacific Northwest National Laboratory and Washington State University researchers and scientists are collaborating to solve key grid modernization challenges.

They will discuss AGI work to implement a national-scale simulation platform and data framework to enable advanced grid controls and operations for complex power systems of the future. The AGI co-directors and other speakers will also highlight ongoing activities, joint appointments (JA), and future opportunities. Discussion and question and answer periods will follow every session:

» Joint PNNL/WSU Research Projects: GMLC - Citadels and GridAPPS-D with Kevin Schneider (PNNL/WSU JA) and Anamika Dubey (WSU) | 10:00 – 11:00 a.m.

» 1+1 > 2 – AGI Distinguished Graduate Research Program and Joint Appointments Panel Discussion | 11:15 a.m. – 12:15 p.m.

» Interactive Strategic Planning Session for AGI with consultant Jean Frankel, Jeff Dagle (PNNL) and Noel Schulz (WSU/PNNL JA) | 1:15 – 2:15 p.m.

» PNNL/WSU Joint Institutes Panel with Co-Directors John Holladay and James Boncella, and introductions by Chris Keane (WSU), Tony Peurrung (PNNL) | 2:30 – 3:30 p.m.

» Joint PNNL/WSU Research Project: Grid Sandbox with Henry Huang (PNNL/WSU JA) and Anurag Srivastava (WSU/PNNL JA) | 3:45 – 4:45 p.m.
